

ONE KINGS LANE

DECORATING & ENTERTAINING IDEAS

We're Currently Loving: Coastal Blue Rooms

What could have been a white box has been completely transformed into an inviting space in which to cook and entertain thanks to a few coats of paint on the cabinetry and graphic wallpaper to complement the vibrant tone. What we love most is that both treatments are completely doable in a rental space, allowing you to infuse a serious dose of your own personality into a less permanent dwelling.

Cabinet paint color: Benjamin Moore's [Hemlock](#)
