The Le Creuset X Sheila Bridges Collection Is A Limited Edition Must-Have
by Victor Amos

The legendary cast iron and ceramic craftsmanship of **Le Creuset** has combined forces with iconic interior designer, **Sheila Bridges**. These two powerhouses have teamed-up to bring **Harlem Toile de Jouy** into your everyday dining experience. Harlem Toile de Jouy is crafted in the tradition of French pastoral motifs, but shakes things up by featuring scenes from the everyday lives of Black people, whose depictions have historically been excluded from this art form. The toile patterns include young girls double Dutching, men having a pick-up game of basketball, a couple dancing to a boombox, and ladies doing their hair and makeup. It is a beautifully-executed mashup of the antique and contemporary. These **little treasures** give you the unmatched quality of Le Creuset with the gift of Sheila Bridges' design sensibilities. Beyond the quality and design, the price makes them a perfect consideration for a host gift and bridal registry inclusion. Let's get a peek at the collection.
