SHEILA BRIDGES FOR WALMART

BY ELIZABETH AYOOLA · UPDATED JUNE 3, 2026

Just in time for [summer hosting](#) season and America's 250th birthday, acclaimed interior designer [Sheila Bridges](#) is launching her new "Philadelphia Collection." This 14-piece, limited-edition collection brings history, style, and accessibility to the table, making it perfect for outdoor entertaining.

Inspired by her childhood in [Philadelphia](#) and her belief that the best moments in life happen around the table, the collection of plates, cups, bowls, pitchers, and more blends storytelling with everyday function. Even better? Every piece is priced under \$20 and available at Walmart, making this one of Bridges' most accessible releases to date. If you've been wanting to add her work to your collection but the cost has been a barrier, now is your chance.

"I grew up in Philadelphia, where history is built into the streets and summers meant gathering with family, friends and neighbors of all different generations," Bridges said in a press release. "That's the spirit behind every piece in this collection. Making my designs accessible to everyone has always been the goal, and partnering with Walmart made that possible in a way that no other retailer could have."

The collection reimagines iconic symbols and historical figures, such as Independence Hall, the Liberty Bell, and Benjamin Franklin, through hand-painted motifs and bold, modern color combinations. You can find items like statement serving platters and pitchers in the collection, ideal for hosting a backyard BBQ, holiday cookout, or casual dinner with friends.

Bridges is equally excited about how affordable this line of home goods is.

"I'm thrilled by the quality we were able to achieve at this price point, and this partnership means that the kind of thoughtful, beautifully crafted design I've always stood for can now live in all homes, regardless of budget. Seeing that vision come to life in this way has been extremely exciting for me," she said.

The interior designer, who founded [Sheila Bridges](#) Design in 1994, is known for her signature Harlem Toile de Jouy pattern and ability to blend history, humor, and depth. She brings that same lens and artistic expertise to this new collection.

With a career spanning more than three decades, Bridges has cemented her place as one of the most influential voices in interior design. Named America's Best Interior Designer by Time and CNN, she has conceived spaces for high-profile clients, including the Harlem offices of President Bill Clinton and the official residence of Vice President Kamala Harris. Her work has also been featured in major museums around the world, from The Metropolitan Museum of Art to the Victoria and Albert Museum in London.

The "Philadelphia Collection" brings that same design expertise to everyday homes. You can access the full collection at [Walmart](#) while supplies last.
